Samsung Droid Charge microSD Replacement

Replace the microSD card in your Samsung Droid Charge.

Written By: Luke Gordon

INTRODUCTION

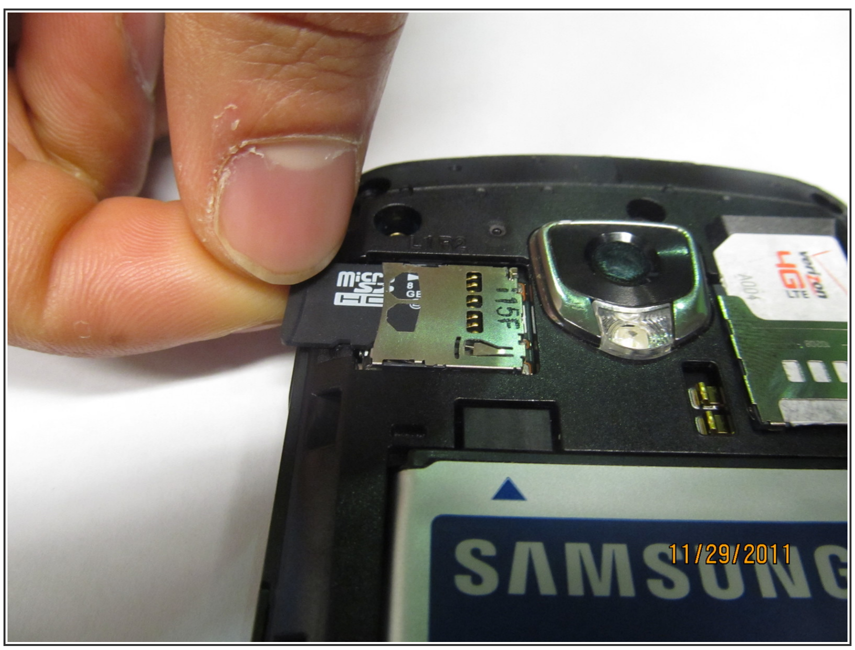

This guide will show you how to remove your current microSD card from your Samsung Droid Charge and install a new one.

Step 1 — Rear Cover

- Open up the back case on the phone from the groove in the bottom of the phone.
- You can do this by inserting a fingernail or similarly thin object into the groove and pulling up with mild force.

Step 2 — microSD

- Push the SD card further into its metal slot until you hear a click.
- Release the card, and it should automatically eject itself.
- Remove the SD card.

To reassemble your device, follow these instructions in reverse order.
